

# SharePoint Job Profile

---

Thorogood ([www.thorogood.com](http://www.thorogood.com)) is an independent IT consultancy specialising in Business Intelligence. We apply advanced technologies creatively to help our clients make critical decisions for their business.

We deploy small teams who work closely together and with clients so we need people who are good at taking responsibility, building relationships and earning trust.

For over twenty years, Thorogood has maintained a single focus on business intelligence. We integrate business strategy with leading edge technology so our clients can realise significant value from advanced reporting and analysis capabilities. Our people are industry recognised for their technical capabilities and business acumen.

## *Summary of Role*

We are seeking a business intelligence consultant with experience of delivering BI solutions using the Microsoft suite of tools, specifically experience of delivering end user functionality within Microsoft SharePoint. They must be able to develop relationships with colleagues and clients in an open, supportive and professional blue chip environment.

## *Technical skills*

- Expertise with Microsoft SharePoint 2007 / 2010 including one or more of the following:
  - Use of BI shared services (PerformancePoint, Excel Services, Reporting Services)
  - Development of custom components with ASP.NET, Silverlight
  - Knowledge of collaboration and content management capabilities
  - Knowledge of integration of third party BI tools (Panorama, Qlikview, Cognos) (nice to have)
- Experience with SQL Server 2005 / 2008 including:
  - Relational Database
  - Analysis Services
  - Reporting Services
  - Integration Services (nice to have)

A technical interview will be part of the recruitment process.

## *Additional skills*
